

September 26, 2007

Dear Chuck and The Z Plane LLC,

Firstly, I would like to thank you for more than a job well done. It was a pleasure working with you from our initial idea of the possible directions we wanted to take our company, all the way to the final tweaks to our website.

I would also like to commend you on your knowledge and understanding, to say that either is above the call of duty would be a gross understatement. Your ideas were dead on, even when we couldn't see the whole picture and I'm quite sure drove you insane changing concepts, changing them again and finally changing them back to the original. You were patient and always there at our every call. You made us feel as if we were the only thing in the world that you had to do.

That means a lot to us and I can speak on behalf of all of us that I have no doubt in my mind that we made the right decision in going with The Z Plane. Not that we needed reassurance on what an incredible and outstanding job you did for us on our logo and web design, but we have certainly gotten it. From clients to colleagues, our website gets nothing less than stellar reviews. We still find ourselves occasionally clicking around on it for no reason other than to admire it.

You have most certainly outdone our hopes and expectations.

Sincerely,

Frank Grumeretz - President
